ABAGUARD ORAL LV CONCENTRATE FOR SHEEP

DIRECTIONS FOR USE

Restraints

DO NOT USE on female sheep which are producing or may in the future produce milk or milk products for human consumption.

CONTRAINDICATIONS

This product is contraindicated for use in lambs under six (6) weeks of age or less than 10 kg bodyweight.

DOSAGE AND ADMINISTRATION

Abaguard Oral LV Concentrate for Sheep dose rate is 1 mL/10 kg body weight.

DOSE RATE TABLE:		
Liveweight kg	Dose Volume (mL)	Sheep Treated
11-15	1.5	6667
16-20	2	5000
21-30	3	3334
31-40	4	2500
41-50	5	2000
51-60	6	1666
61-70	7	1428
71-80	8	1250

Animals in excess of 80 kg to be dosed at 1 mL per 10 kg. A representative sample of animals should be weighed before treatment. Dose the mob to the heaviest animal by liveweight in each group (ewes, wethers, rams, lambs). DO NOT underdose. Where there is a large variation in size within the group, dose rate should be based on the label directions for each weight range. Drafting into two or more lines may be appropriate, to avoid excessive overdosing. Abaguard Oral LV Concentrate for Sheep contains Abamectin, a member of the Avermectin family of drenches.

It is effective against sensitive strains of the following adult and immature internal and external parasites of sheep:

Adult and immature gastrointestinal roundworms
Haemonchus contortus - Barber's pole worm (including inhibited L4 stage)
Haemonchus placei - Large stomach worm
Ostertagia circumcincta - Small brown stomach worms (including inhibited L4 stage)
Trichostrongylus axei - Stomach hair worm
Trichostrongylus colubriformis, *Trichostrongylus vitrinus* - black scour worm

Cooperia curticei, *Cooperia oncophora* - Small intestinal worm
Nematodirus spathiger, *Nematodirus filicollis* - Thin necked intestinal worm
Chabertia ovina - Large mouthed bowel worm
Oesophagostomum columbianum - Nodule worm
Oesophagostomum venulosum - Large bowel worm
Trichuris ovis - Whipworm

Strongyloides papillosus - Intestinal threadworm

Lungworm

Dictyocaulus viviparus - Large lungworm

Also treats and controls

Psorergates ovis - Itch mite

Oestrus ovis - Nasal bot.

Resistance may develop to any drench. Ask your local veterinary practitioner or animal health adviser for recommended parasite management practices for your area to reduce development of resistance. It is advisable that a drench resistance test be conducted before any drench is used.

WITHHOLDING PERIODS

MEAT: DO NOT USE less than 14 days before slaughter for human consumption.

MILK: DO NOT USE on female sheep which are producing or may in the future produce milk or milk products for human consumption.

TRADE ADVICE

EXPORT SLAUGHTER INTERVAL (ESI): DO NOT USE less than 28 days before slaughter for export. The ESI on this label was correct at the time of label approval. Before using this product confirm the current ESI from either the manufacturer on 1800 44 88 92 or the APVMA website (www.apvma.gov.au/residues).

SAFETY DIRECTIONS

Poisonous if swallowed. May irritate the eyes and skin. Avoid contact with eyes and skin. Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26. If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

ADDITIONAL USER SAFETY INFORMATION

SAFETY DATA SHEET

For further information, refer to the Safety Data Sheet which is available from the supplier.

ENVIRONMENTAL PROTECTION

Abamectin is extremely toxic to aquatic species. DO NOT contaminate dams, rivers, streams or other waterways with the chemical or used container.

DISPOSAL

Triple-rinse containers and dispose of rinsate in compliance with relevant local, state or territory government regulations. DO NOT dispose of undiluted chemicals on-site. If the container has the *drumMUSTER* logo visible, and has been thoroughly

cleaned and dried, and is free of any visible residues, it can be recycled at any *drumMUSTER* collection or similar container management program site. The cap should not be replaced, but may be recycled separately with the container. If not recycling, break, crush, or puncture container and deliver to an approved waste management facility. If an approved waste management facility is not available, bury the broken, crushed or punctured containers 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and tree roots, in compliance with relevant local, state or territory government regulations. DO NOT burn empty containers or product.

STORAGE

Store below 30°C (room temperature). Store in original container.
